Professor of Geography
Northern Illinois University

Paul J. Pugliese
Cartographer

The Governors State University's Learning Resource Center is in the process of rebuilding its map collection. One of the series we would like to have is the agency's "General References Maps of Foreign Countries". Since the library is a government depository, in the future, we will receive the agency's current maps. From whom can we obtain these maps? Are they out-of-print? Will these maps be offered again in the future?

I look forward to hearing from your office.
